Spring 2019

Welcome to the Spring Newsletter for 2019 when once again we are enthusiastically encouraging our members to build numbers in their own herds and also supply the increasing market for Guernsey cattle, both at home and abroad, by embracing the use of the 4M Sexed semen, available to you for the first time from Mainland bred bulls. If you have not already used the 4M Sexed semen from EGCS bulls Beechgroves Excalibur and Briddlesford Harebells Victor collected and stored for us at Cogent please do not delay. Priced at a very attractive £23.00 per straw (£22.00 to our Levy members) + £50 delivery you will not find a more enticing deal on the semen market and with 4M Sexed semen you have the added incentive that the conception rate of this semen is comparable with conventional semen, so don't delay, don't dither and give it a go. Obviously the larger your order the more you are able to spread the delivery cost so a good time to make an investment in the future of your herd. I have many interested parties just queuing up to buy your surplus heifers whilst the milk buyers at last turned their attention to quality as well as quantity – **THIS IS A GOLDEN OPPORTUNITY – TAKE FULL ADVANTAGE OF IT.**

Waiting in the wings I have two bulls which will go on to join Excalibur and Harebells Victor in supplying the market for conventional semen during the summer months, before we consider the next bull that will travel to Chester for the collection of the next batch of 4M Sexed semen. They are Eby Manor Indigo, being sold in conjunction with Semex, a good all round bull with Milk, a + figure for Fat, level for Protein and a very creditable 1.8 for Mammary. In addition he offers our members some outcross breeding, his Sire being Marodore T Les Lightning, a few of you may have purchased sexed semen from the Society from this bull, but in the main this offers most something a bit different. In addition his Dam is the EX92 Eby Manor DL Indy who has performed in Type, Production and constituent values and has more than earned her reputation in the Canadian Association.

The other young bull to be collected within the next month is Trewey Yorkies Freddie, bred by the Mann family and now owned by Julian Ellis of Boscarne. Once again a very genuinely bred bull that offers milk but also very importantly in today's financial climate when quality is coming to the

fore, + figures for Fat and Protein. This bull excels in type, being 2.1 for Mammary, 1.4 for Feet and Legs and 1.3 for Locomotion. Longevity is the name of the game with this bull, his Sire Bourton Laredo's Fernando is still serving cows at Bickfield at the ripe old age of 6 years and Freddie's Dam is one of the many outstanding dams produced by Trewey Sheila's Bruce at Zennor going back to Les Jaonnets Car's Amir. The Amir/Laredo connection promises much. As soon as I have a price per straw for both of these bulls I will contact you individually so you can plan your breeding for the next six months.

REGISTRATIONS

During the last few months the Society has been able to get most female registrations up to date but I would say to a very few of you – and you know who you are! – that with a little cooperation with your milk recording company this can be made a whole lot easier. If you record with CIS just let the EGCS Office have your Username and Password and I can access your records easily. If you record with NMR slightly less simple as they have installed another layer of security. Please ask your milk recorder or supervisor to sign you up for Herd Companion, if you have not already done so, and just add The English Guernsey Cattle Society to the access for third parties. In both cases the majority of your information will be available to me, with both companies it may be necessary for me to contact you in person where information is missing but this access will make the task less onerous. To the majority of our members who regularly use Telereg and Webreg as a matter of course, I thank you for your continued conscientiousness. If you have Guernsey calves and heifers – **WE NEED TO KNOW ABOUT THEM.**

Registration of bulls – again most of our members use the systems in place well, but there are a few members who insist in registering a bull just before you put him a field with his first group of heifers or in some cases a few weeks before the calves are due to be born. Please, please register your bulls as soon as you have made the decision to keep him and most importantly always take a hair sample from his Dam at birth. Now we are routinely testing all newly registered bulls for Genotype it is essential to have DNA from both Dam and Sire – a Genomic figure will not be issued for a bull where this

information is not available. Its no good telling me that the Dam went as a casualty a week after she calved or even that she went barren 6 months ago. So please make sure a hair sample is taken at birth or as soon as possible afterwards.

STOCK FOR SALE

The Greensfield herd of Martin, Caroline and Emma Greenslade have a surplus of Guernsey heifers and have around 40 head of youngstock ranging from calves to bulling and in calf heifers to offer for sale. Please contact Caroline on 07742 664938 or greensfieldguernseys@icloud.com. There has already been a lot of interest in this stock so please do not linger if you are at all interested.

FORTHCOMING DATES

Sunday 18th August 2019 – Guernsey Open Day incorporating clipping and handling demonstrations for our younger and maybe not so young members to be hosted by Caroline, Martin and Emma Greenslade at Ponchydown Dairy (EX15 2HQ) and Herastan Farm (EX15 2DU) Blackborough, Cul-lompton, Devon, EX15. Meet at 10am at Herastan Farm (Emma's) for Tea and Coffee followed by clipping and handling demos where you will be encouraged to join in. This will be followed by Lunch at £10 per head – anyone who has attended The Devon Dinner will know that this is an event in itself – and then you will be invited to view the cows and young stock at Ponchydown Dairy. Please support Caroline and Emma's initiative and enjoy a lovely day out in the Devon countryside. The farm is easy to access from Junction 28 of the M5 so a big welcome to as many members as possible.

Tuesday 3rd and Wednesday 4th September 2019 – Field Days and AGM hosted by our President Mr Digby Gribble.

3rd September – 2pm – Visit West Somerset Buffalos, the herd, Farm Shop and Cheese-room. 6.30pm – Visit the renowned Haynes Motor Museum followed by Dinner
4th September – AM – Visit the Hinton Herd and Farmshop at Mudford by kind invitation of the Bartlett family.

Lunch, award of trophies for the EGCS Herd Competitions 2018 and The Annual General Meeting at The Sparkford Inn.

Full details of both of these events will be circulated to all members in July but please mark your diaries now.
